

BAAMA President's Message
April 2002

Hello to all my fellow GIS'ers, Another California GIS Conference has come and gone. I would personally like to thank all the speakers for sharing your project experiences and knowledge with us (your friends and colleagues). I personally enjoyed a couple of sessions that broadened my technical and managerial knowledge base. I would also like to thank the numerous sponsors who showed us all the latest and greatest ways to analyze and manipulate our spatial data. We also identified a couple new resources to give us a helping hand when needed. And let's not forget the all important message from the Prison Industry Authority... "No Whining". Perhaps the most fun came from talking to a couple of you first timers or shall I say "New-Bees". I always walk away from the California GIS Conference with a renewed excitement to create GREAT GIS Applications! I hope that you all left feeling the same way. See you in Palm Springs, February 26-28, 2003 for the 9th Annual CalGIS.

Lysée Moyaert
President, BAAMA Board of Directors
